2 Circle Venn Diagrams – A Teacher Resource Project Upload

Posted on February 17, 2016 by efofex

This new upload is a one sheet summary of all possible shadings of a two-circle Venn diagram, with the associated set statements.

I can think of another where EVERYTHING inside the box and circles is shaded.
This could be either (A OR NOT A) or (B OR NOT B)

I agree with RAJ. From an teacher's perspective, the diagram isn't mathematically correct. However, you get a 98% for your representation.
